kottupavang@gmail.com | +91 8125951503 | Tadepalligudem, Andhra Pradesh, 534101 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer transitioning toward a career in Cybersecurity, currently building foundational skills in networking, Active Directory, and web application security through hands-on TryHackMe labs. Brings 3+ years of professional experience in .NET application modernization and Azure integration testing, with a methodical, detail-oriented approach well suited to security problem-solving. Currently leading a .NET Framework-to-.NET 10 migration at HCLTECH while actively developing cybersecurity expertise.

EDUCATION

Birla Institute of Technology and Science, Pilani Expected Mar 2027
B.Sc. Design & Computing — Hyderabad, Telangana

Aditya Junior College 2019 – 2021
Intermediate, M.P.C — Tadepalligudem, Andhra Pradesh | Percentage: 91.6%

CYBERSECURITY SKILLS

Networking & Systems: TCP/IP, DNS, DHCP, OSI Model, whois

Operating Systems: Linux (command-line for enumeration & security tooling), Windows PowerShell

Active Directory: Kerberos & NTLM Authentication, Common AD Attack Vectors

Web Application Security: OWASP Top 10, SQL Injection, XSS, Authentication & Session Flaws

Tools: Nmap, Wireshark, Burp Suite, SQLMap, Hydra, Metasploit (foundational)

TECHNICAL SKILLS

.NET / Migration: .NET Framework to .NET 10 migration, NuGet package upgrades, System.Text.Json, Newtonsoft.Json

Front-End: HTML5, CSS3, JavaScript, Bootstrap, ReactJS, Socket.IO

Back-End: NodeJS, ExpressJS, C#, .NET

Databases: SQL, MongoDB

Testing: Azure Integration Testing, Regression Testing, Load Testing

Programming Languages: C#, Python, JavaScript

Developer Tools: Visual Studio Code, Postman, Git

PROFESSIONAL EXPERIENCE

Software Engineer — .NET Developer | HCLTECH | Vijayawada, India Mar 2025 – Present
Client: Rio-Tinto (Australia)

- Lead an ongoing migration of a production .NET application to .NET 10, upgrading NuGet package dependencies while preserving all existing business logic and application behavior.
- Apply minimal-footprint code fixes to resolve compatibility issues introduced by the framework upgrade, without adding new features or altering intended functionality.
- Replaced Newtonsoft.Json with System.Text.Json across the codebase to resolve serialization issues surfaced during migration, reducing external dependencies.
- Diagnose and fix cascading issues caused by upgrade-related code changes, validating each fix against pre-migration functionality before deployment.
- Deploy migrated components to production, ensuring zero disruption to end users and full functional parity with the previous .NET version.

Software Engineer — Azure Integration Testing | HCLTECH | Vijayawada, India Dec 2022 – Feb 2025
Client: Rio-Tinto (Australia)

- Migrated Logic Apps from Consumption to Standard tier, enabling testers to validate critical bugs and confirm functionality against business requirements.
- Designed and executed end-to-end test plans for Azure Logic Apps, including smoke, sanity, and regression testing.
- Monitored and analyzed run history to troubleshoot errors and optimize performance.

- Performed load testing on Azure Logic Apps integrations, ensuring messages under high load did not route to the Dead-Letter Queue.
- Documented test results and participated in code reviews to flag issues early in the development lifecycle.

PROJECTS

Chat Application (Innovex Gather)

Jun 2025

Technologies: MongoDB, ExpressJS, ReactJS, NodeJS, Socket.IO (MERN Stack, Socket.IO)

- Built a real-time chat application with secure authentication, contact management, and smart user search.
- Implemented real-time messaging with typing indicators, read receipts, online/offline status, and emoji reactions via Socket.IO.
- Added unread-message counts, persistent history, media sharing, block/unblock privacy controls, and push notifications.

Doctors Appointment (Innovex Care)

Apr 2025

Technologies: MongoDB, ExpressJS, ReactJS, NodeJS (MERN Stack)

- Built a booking platform with distinct Admin, Doctor, and Patient roles and role-based authentication.
- Implemented real-time slot availability, appointment approval/rejection, online/offline fee payment, and profile management.
- Delivered a fully responsive design for seamless use across mobile and web.

Apple Store Website

Sep 2024

Technologies: ReactJS, Bootstrap, JSON-Server

- Developed an e-commerce site with detailed product listings, smart filtering, and a streamlined checkout flow.
- Added post-payment order tracking and cancellation.

Recipe Website

Aug 2024

Technologies: ReactJS, Bootstrap, JSON-Server

- Built a responsive recipe discovery site with user authentication, favourites, and instant filtering.

CERTIFICATIONS

Cybersecurity

Hacker Holidays Participant – TryHackMe | [Link](#) | Aug 2026

- Practiced fundamental cybersecurity concepts including Network security, web vulnerability assessment, and cryptography.
- Solved gamified, hands-on labs simulating real-world security threats and defensive strategies.

Pre Security – TryHackMe | [Link](#) | Jun 2026

- Mastered foundational security elements including **Network Fundamentals**, **Web Fundamentals**, and **Linux/Windows Operating Systems**.

Cybersecurity – Frontlines Media (FLM) | Mar 2026

- Completed intensive training focused on core security paradigms, incident response basics, and infrastructure protection tactics.

Technical

Web Application Development (State-Level Participation Certificate) – Skill India | 2023

- Awarded state-level recognition for building web applications aligning with industrial quality standards.

Frontend Developer (Intermediate) – HackerRank | [Link](#) | 2024

- Certified in end-to-end frontend workflows, UI rendering mechanics, and state management optimization.

ACHIEVEMENTS

- Solved 70+ problems on HackerRank.
- Earned a HackerRank Gold Badge in React.js during tenure at HCLTECH, recognizing proficiency in building user interfaces.
- Ranked among 50+ participants in the Skill India State-Level Web Technologies Competition.
- Karate Certification — Orange Belt.
